

Twemlow Emergency Plan [TEP]

Twemlow Parish Council has created an Emergency Resilience Plan so that we are better prepared should there be an emergency in our area.

Information taken from the questionnaires delivered to each house has been evaluated and a risk assessment has been prepared. ***If you did not return your questionnaire and wish to be included you can download a copy from the website and return a paper copy to: Barbara Torney, 7 Twemlow Lane***

In cases of emergency, contact will be made via eight key householders who have volunteered to help [shown on the coordinators contact sheet below], these volunteers will be the liaison coordinators for households nearest to them and alert them of any danger.

The plan will also come into play if the community needs support in severe weather conditions or if the National Grid is affected.

During times of emergency when the local community need support we need to be:

- ❖ confident and self sufficient
- ❖ have a clear view of our future and needs
- ❖ are proud and neighbourly - we know our communities and where those who may be vulnerable are living
- ❖ support older people through 'buddying' schemes, shopping, snow clearing, providing key information etc.
- ❖ pull together to get things done
- ❖ have a voice to influence the decisions that affect us
- ❖ are well led by local people who know the community
